Filed June 2, 1994 : [Group Art Unit 1815
METHOD TO ISOLATE MACROMOLECULES: Examiner T. Reardon]
USING MAGNETICALLY ATTRACTABLE
BEADS WHICH DO NOT SPECIFICALLY
BIND THE MACROMOLECULES

LETTER RE: DRAWING CORRECTIONS

Honorable Commissioner of Patents and Trademarks,
Washington, D.C.

Sir:

In reply to the requirement for corrected drawings in the
Notice of Allowability dated October 2, 1995, there is submitted
herewith four sheets of corrected formal (board) drawings
(Figs. 1-3).

These drawings are in compliance with the Notice of
Draftsperson's Patent Drawing Review (Paper No. 4) requiring
deletion of descriptive matters in Figs. 1A-3.

In the enclosed drawings, the descriptive matter in the
headings has been deleted, however, the remaining descriptive
matter has been retained since retention is essential for
understanding the invention and, of course, the drawings.

It was agreed in a telephone interview with the Chief Draftsperson's Office (Bridget Gray) that the above-noted revision is acceptable.

Respectfully submitted,

Michael A. REEVE
